If this story touched you — please help.

I am not asking for much. Even **$1, $2, or $3** from someone who cares is enough to move me forward. And if you cannot give — sharing this page costs nothing and may reach someone who can.

Please don't disappear after donating. I want to know who helped me survive. Write to me on Telegram — even just one message. And when I recover, I will do everything I can to give back, in whatever way I am able.

Your contact means as much to me as your donation.
